

Abloy EL460

Tootekirjeldus

EL460 is a handle controlled solenoid lock used in narrow profile doors. Handle controlled locks are best suited in medium traffic doors. The locks can be electrically controlled by access control system or by a remote control system such as timer, keypad or push button.

Features:

- Voltage: 12-24 VDC
- Backset: 30, 35, 40mm
- Operating temperature range: -20°C kuni +60°C
- Faceplate: 24, 28 mm
- Recommended to be used in interior doors and business premises, public buildings, hospitals, educational premises etc.
- Only outside handle is electrically controlled. The lock can always be opened by inside handle. Mechanical opening by cylinder is always possible.
