

# ABUS GRANIT Victory

## Tootekirjeldus

### Application:

- Double protection for Bikes und Scooters by securing the brake disk and fixing the bike at a solid object
- Recommended for protection of two-wheels with a high risk of theft.

### Operation:

- Brake disk lock blocks the brake disk and so protects against unauthorized use.
- The strong, hardened chain protects the vehicle against unauthorized take away/theft.
- Lock may be used separately

### Technology:

- Granit Victory X-Plus 68 brake disc lock made of special steel with hardened 12 mm chain
- 2 in 1, universally usable security system - brake disk lock can also be used individually
- ABUS X-Plus locking system for highest protection against intelilgent opening methods
- Incl. lighted key and memory cable

**Transportation:**

- Easily transported under the seat, as the chain can be folded compactly
