--------------	--------	------

33331 ABUS 140/190 screws. In addition, hardened steel eyelets for the padlock shackle are encapsulated inside the hasp and thus provide optimum protection against break-in attacks. Together with the appropriate padlock, the hasp then ensures the highest level of security when securing the door and gate. The strong ABUS 140/190 Diskus® hasp is suitable for flush doors, i.e. the door panel and door frame are on one level. The design is matched to the original ABUS Diskus® padlocks so that the shackle is shielded against unlocking tools.
