

ABUS City Chain 1010/110

Tootekirjeldus

The ABUS CITY CHAIN 1010 chain lock consists of 9 mm thick hexagonal links in a durable nylon sleeve. With a length of 140 cm, this lock allows you to secure one motorbike or scooter to a fixed object, such as a pole.

With Security Level 12 this lock offers a good protection at high theft risk locations. Chain, lock body and the internal elements of the lock mechanism are made of special hardened steel.

The renowned ABUS X-Plus cylinder ensures a high level of protection against manipulation, such as lockpicking. For optimal theft protection, make sure the chain lock is not placed on or near the ground. This will help protecting the chain against heavy-handed manipulation.

Technical specifications:

- 9 mm hexagonal links
- Length: 110 cm, suitable for 1 motorcycle
- ABUS X-Plus cylinder for optimal protection against manipulation like lockpicking
- Chain, lock body and the internal elements of the lock mechanism are made of specially hardened steel
- Durable nylon protection sleeve prevents paintwork damage
- Automatic cover protects cylinder interior from dust and dirt
